Letter from Management

Our financial results for the first half of the year show that Nissan is back on track on an operating level. Sustainable, profitable growth is still our aim, which our performance affirms. In the second quarter especially, a combination of growing global sales and favorable foreign exchange helped to raise our operating profit margin from 6.1% in the first quarter to 8.4% in the second quarter. Our net income was lower in the first half, mainly due to a higher effective tax rate and less-favorable one-time items.

Our revenues increased by 11.7%. Nissan's consolidated operating profit margin increased from 6.1% in the first quarter to 8.4% in the second quarter, resulting in 7.2% for the first half. And first-half net income decreased 22.5% to 212.4 billion yen, mainly due to a higher effective tax rate than last year and less-favorable one-time items.

In the second half we will complete the task of putting Nissan back on track to sustainable profitable growth – without losing focus on our long-term objectives. Our forecast for the full fiscal year remains unchanged.

We are determined to fulfill your high expectations of Nissan.

Carlos Ghosn
President and CEO

First Half of Fiscal Year 2007 Business Review

For the first six months of fiscal year 2007, Nissan's global sales increased 6.3% from the previous year to 1,816,000 units, despite total industry volume declining in Japan, the U.S. and Europe. Around the world, the company introduced 7 all-new models in the first half and executed over 15 product-launch events in various regions.

Japan

In Japan, total industry volume declined 8.1%, with minicars decreasing 6.8% and registered vehicles decreasing 8.8%. Nissan's sales decreased 5% to 332,000 units, with minicars increasing 13.2% and registered vehicles decreasing 8.7%. Consequently, the company's market share increased 0.5 points to 13.4%. Nissan's all-new Dualis crossover, with sales of 15,000 units, and the new-generation X-TRAIL, with a 38.3% increase in sales of 13,000 units, contributed to this result.

Dualis

X-TRAIL

United States

In the U.S., total industry volume decreased 2.4%. In contrast, Nissan's sales increased 5.4% to 534,000 units, with an increase in market share of 0.5% to 6.3%.

In the Nissan Division, first-half sales in the U.S. rose 5.5%. Two key products launched in fiscal year

Versa

2006 continued to make progress. Sales for the Versa were 45,000 units in the first half and market share in this segment increased to 17.9%. The new Altima

increased 27.9% to 144,000 units, compared to its predecessor from last year. Furthermore, Altima sales were augmented by demand for the first-ever coupe version that went on sale in May.

In the first half, U.S. Infiniti sales increased 5.1% from the previous period to surpass 61,000 units. Sales of the new G35 Sedan increased 51.7% to 26,000 units.

Altima Coupe

Europe

In Europe, total industry volume dropped 0.9% to 10.9 million units. In contrast, Nissan's sales totaled 304,000 units, which was an increase of 10.5% from the prior year. Growth in Russia continued to offset declining sales in Western Europe. Nissan's first-half sales in Russia doubled in from last year to 67,000 units.

The new UK-built Qashqai crossover accounted for 20% of European sales volume. In Russia, Ukraine

Qashqai

and countries in Northeast Europe, the back-order for Qashqai is nearly six months. To meet this strong demand, the company will increase capacity at the Sunderland plant by 20% to 185,000 units per year.

X-TRAIL

The all-new X-TRAIL also contributed to the product offensive in Europe with initial sales of 12,900 units. Following its launch last year in Russia, Infiniti has captured 7.3% of a luxury market that has grown by 70%.

General Overseas Markets

In the General Overseas Markets, including Mexico and Canada, sales increased 13.1% to 646,000 units. Strong sales in the following markets offset declines in Mexico and Taiwan. Sales in China increased 25.2% to 225,000 units. Sales were driven by the introduction of the Livina and continued demand for the Tiida. The launch of the Grand Livina in Indonesia resulted in sales of 11,000 units. Sales in the Middle East totaled 89,000 units, which was an increase of 21.3% from last year.

Livina

First half financial results

For the first half of fiscal year 2007, consolidated net revenues increased 11.7% to 5 trillion 64.5 billion yen. This was primarily due to growth in global sales volume and a favorable exchange rate. Operating profit increased 5.3% to 367.1 billion yen. The operating profit margin for the first half was 7.2%.

By region, operating profits in Japan amounted to 121.2 billion yen, compared to last year's 133.7 billion yen. Operating profit in the U.S. and Canada was 131.0 billion yen, versus 121.1 billion yen in fiscal year 2006. Europe's operating profit was 39.8 billion yen compared to 26.8 billion yen in the prior year. General Overseas Markets, including Mexico, contributed 73.3 billion yen to operating profit, which increased from 58.8 billion yen in fiscal year 2006.

Net non-operating items totaled a negative 6.8 billion yen, mainly due to foreign exchange losses. This yields an ordinary profit of 360.3 billion yen, compared to last year's 360.9 billion yen.

Net extraordinary items totaled a negative 19.7 billion yen, which deteriorated from last year's negative 5.2 billion yen. The main differences are due to a one-time gain from selling Nissan Diesel shares to Volvo last year and provisions taken in this first half for early-retirement programs at Calsonic Kansei and Nissan Shatai.

Income before taxes totaled 340.6 billion yen. Taxes amounted to 122.3 billion yen, which increased from 68.4 billion yen in fiscal year 2006. The consolidated effective tax rate for the period was 35.9%, which was higher than the 19.2% rate in fiscal year 2006. The tax rate for last year was exceptionally low due to tax incentives for the move of the U.S. headquarters to Nashville and deductions for losses incurred in the domestic dealer restructuring.

For the first half of fiscal year 2007, net income was 212.4 billion yen, compared to 274.2 billion yen in the previous year.

Nissan will pay an interim dividend of 20 yen per share in November.

Outlook

Considering the risks and opportunities for fiscal year 2007, the most significant risks continue to be high incentive levels worldwide, mix and grade deterioration, high commodity prices and high energy prices. In addition, continued weakness in the U.S. market is anticipated. For Nissan, the major opportunity is to flawlessly deliver the strong products in the company's pipeline. At this point in the product cycle, the company is much better equipped to gain ground in the face of these headwinds.

In addition, Nissan expects to benefit from further growth in the General Overseas Markets and expansion in the Infiniti and light commercial vehicle businesses. Furthermore, the company will enhance its utilization of low-cost sourcing from leading competitive countries.

Given these risks and opportunities, the company is maintaining the full-year forecast of 800 billion yen in operating profit and net income of 480 billion yen.
