*In 2006 we published our last print edition of the Sustainability Report. Out of consideration for the environment, we now publish the report exclusively online. It can be downloaded from our website as PDF files.*
INTRODUCTION

Corporate Vision
Nissan: Enriching People’s Lives

Corporate Mission
Nissan provides unique and innovative automotive products and services that deliver superior measurable values to all stakeholders* in alliance with Renault.

Guided by its corporate vision of Enriching People’s Lives, Nissan aims to contribute to the sustainable development of society through its full range of global business activities in addition to providing value through its products and services. As a leading global automaker, Nissan is committed to all of its stakeholders—including customers, shareholders, employees and the communities where the company does business—to deliver engaging, valuable and sustainable mobility for all. Nissan’s pioneering efforts to promote electric vehicles and to make mobility more affordable for people in emerging countries are part of the initiatives rooted in this vision.

This approach to corporate social responsibility is called “Blue Citizenship.” Through Blue Citizenship, Nissan aims to be a company that meets the expectations of society.

In order to share the company’s CSR-related thinking and activities with as many people as possible, each year Nissan publishes this Sustainability Report. Sharing this information broadly with stakeholders increases the transparency of the company’s actions, as well as providing an opportunity to improve Nissan’s activities by incorporating external feedback, thereby contributing to the development of a sustainable society.

*Nissan’s stakeholders include customers, shareholders, employees, dealers and suppliers, as well as the communities where the company works and operates.
