## Nissan unveils the all-new 2026 Nissan Sentra in the U.S.

The all-new 2026 Nissan Sentra makes the everyday more exciting with a blend of elevated styling and effortless connectivity – building on over four decades of proven value and recently ranked as the top Compact Car in the J.D. Power 2025 U.S. Initial Quality Study (IQS). The all-new Sentra features standard Safety Shield 360 safety technologies, a spirited driving experience and a sporty SR grade.

Reaching showrooms across the U.S. later this year, the 2026 Nissan Sentra is available in S, SV, SR and SL grades.

Nissan today unveiled the new Roox wagon-type kei car in Japan. Regularly one of the top-selling models within Nissan's Japan domestic line-up, the new fourth-generation Roox brings a playful new design, more spacious and upmarket cabin, a suite of innovative driver assistance technologies, as well as quieter and more efficient drive. It is set to go on sale in Japan later this year.

\* As of August 2025

# Demonstrating our sustainability efforts & achievements

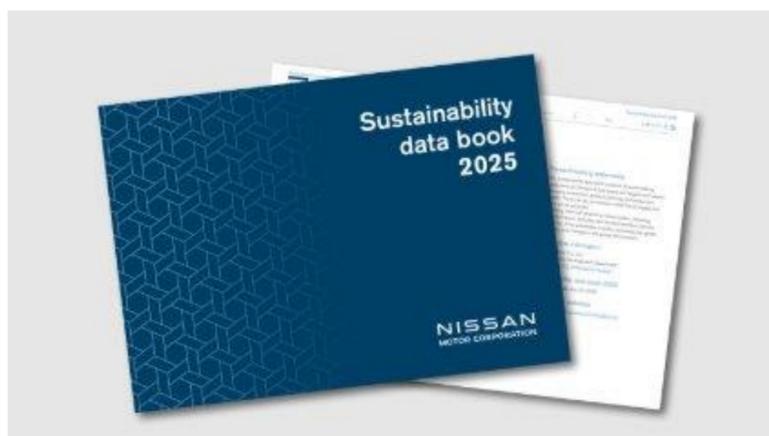

- Advancing environmental and social programs for Nissan’s long-term vision Ambition 2030
- Nissan publishes a sustainability data book to share information on our sustainability strategies and management to help stakeholders gain a better understanding of the social responsibilities we must fulfill and the social value we aim to provide.

1. Environmental Performance Improvements:  
CO<sub>2</sub> emissions total 1,519k tons, representing a 12% reduction from last year (1,731k tons → 1,519 k tons).

2. Electrification and Fuel Economy / Emissions Indicators:

Regional data on fuel efficiency and the sales ratio of EVs (EV, Hybrid, PHEV) are disclosed, demonstrating Nissan’s accelerating shift toward zero-emission vehicles.

3. Resource Efficiency and Recycling:  
Data also covers the use of renewable energy and resource-saving measures in operations.

## Nissan unveils next-generation ProPILOT featuring AI ahead of FY27 launch

Next-gen ProPILOT will leverage Wayve AI Driver software and next-generation LiDAR to enhance safety

Nissan this month commenced demonstrations of its next-generation ProPILOT advanced driver-assist technology, ahead of its scheduled launch in Japan during FY27. A fleet of all-electric Nissan Ariya-based prototype vehicles demonstrated their ability to drive safely and confidently within the complex urban environment of central Tokyo\*.
