b. Financial policies

It is necessary to pay careful attention to the liquidity of funds in view of the drastic environmental changes in the financial markets and other relevant concerns. However, as the Group has entered into loan commitment agreements with major international banks in addition to the cash and cash equivalents held, the Group believes that a level of liquidity is sufficient to meet the Group's funding requirements.

(6) Management policy and business strategies

Guided by the vision of Enriching people's lives, the Group aims to provide unique and innovative products and services that deliver superior measurable values to all stakeholders under the Alliance.

The Group announced on November 8, 2017, the new midterm plan "Nissan M.O.V.E. to 2022" designed to guide the company toward profitable growth over the next six years, and to prepare for further growth beyond the plan as the evolution continues. The new plan expresses that the Group will keep on moving and evolving toward the future, and it stands for the following drivers:

- Mobility
- Operational Excellence
- Value to Customers
- Electrification

The mission under "Nissan M.O.V.E. to 2022" is to be built on the strong business foundations of "Nissan Power 88", and leverage the benefits of our Alliance with Renault and Mitsubishi Motors Corporation, in order to;

1. Achieve sustainable growth, while delivering healthy profitability and strong free cash flow
2. Lead the technology and business evolution in the automotive industry, backed by our technology DNA

The Group will fulfill its mission by engaging in “Nissan M.O.V.E. to 2022” with in mind of the technology evolution coming in the next 10 to 15 years, as well as the significant changes in the market and evolving customer expectations.

The mission of the six-year midterm plan “Nissan M.O.V.E. to 2022” announced on November 8, 2017 is to achieve sustainable growth and to lead the technology and business evolution of the automotive industry. Because China market is one of the most important markets for the global automotive market today, this midterm plan of 8% operating margin, which is one of the Group’s KPIs, is based on the proportionate consolidation of the Chinese joint venture. By the end of the plan, the Group aims to grow revenues to ¥16,500 billion, and generate a cumulative ¥2,500 billion of automotive free cash flow, with 8% operating margin.

A full and comprehensive investigation of the facts, including the causes and background of the misconduct, is underway. 3 Contingent Liabilities

• Lawsuits related to Takata’s airbag inflators

Mainly in the United States (“U.S.”) and Canada various putative class action lawsuits, civil lawsuits and lawsuits by states related to Takata’s airbag inflator have been filed against the Company, consolidated subsidiaries and other Original Equipment Manufacturers. The lawsuits allege that the subject airbag inflators did not function properly, and seek, among others, damages for economic losses, incurred costs, decline in the value of vehicles, and, in certain cases, personal injury as well as punitive damages. Most of the class action lawsuits in the U.S. were transferred to the U.S. District Court for the Southern District of Florida and consolidated into a multi-district litigation (“MDL”). The Company and Nissan North America, Inc. (“NNA”) have agreed to a proposed settlement that would resolve the US class actions that are pending against them in the MDL, through a number of customer-focused programs. In September 2017, the court in the MDL granted preliminary approval to the proposed settlement. The total payment amount for the settlement will be \$87.9 million to be paid over four years. The settlement amount has been partially paid and the remaining discounted obligation has been recorded for \$49.6 million as of the current first quarter end. In February 2018, the court in MDL granted final approval to the proposed settlement. Regarding the lawsuits other than the above, management has not recognized a provision for loss contingencies because as of the date of this report it is not possible to reasonably estimate the amount, if any, of any potential future losses because there are some uncertainties, such as these lawsuits are still in progress.
