1. Business Performance and Financial Position

(1) Fiscal year 2024 business performance

In fiscal year 2024, the global industry volume increased by 3.3% from the prior fiscal year to 87.30 million units. The Nissan Group (the "Group")'s global retail sales volume decreased by 2.8% from the prior fiscal year to 3,346 thousand units. The Group's market share decreased by 0.2 percentage points from the prior fiscal year to 3.8%.

In Japan, the total industry volume ("TIV") increased by 1.0% to 4.58 million units. The Group's retail sales volume decreased by 4.8% to 461 thousand units, and the Group's market share decreased by 0.6 percentage points from the prior fiscal year to 10.1%.

In China, TIV increased by 1.6% to 25.14 million units. The Group's retail sales volume decreased by 12.2% to 697 thousand units, and the Group's market share decreased by 0.4 percentage points from the prior fiscal year to 2.8%.

In North America, which includes Mexico and Canada, TIV increased by 3.0% to 19.36 million units. The Group's retail sales volume increased by 3.3% to 1,303 thousand units.

In the United States of America, TIV increased by 2.2% to 16.02 million units. The Group's retail sales volume increased by 2.5% to 938 thousand units, and the Group's market share was 5.9%, remaining nearly flat from the prior fiscal year.

In Europe, which includes Russia, TIV increased by 4.7% to 17.12 million units. The Group's retail sales volume decreased by 2.9% to 351 thousand units, and the Group's market share decreased by 0.1 percentage points from the prior fiscal year to 2.0%.

In other markets, the Group's retail sales volume decreased by 1.2% to 535 thousand units. Retail sales volume in Asia and Oceania decreased by 13.5% to 145 thousand units, retail sales volume in Latin America decreased by 0.1% to 167 thousand units, retail sales volume in Middle East increased by 11.1% to 169 thousand units, and retail sales volume in Africa decreased by 0.6% to 54 thousand units.

Net sales in fiscal year 2024 decreased by ¥52.5 billion (0.4%) from the prior fiscal year to ¥12,633.2 billion. Operating income totaled ¥69.8 billion, decreasing by ¥498.9 billion (87.7%) from the prior fiscal year. This was mainly due to a decrease in sales volume, an increase in sales incentives, and inflation.

Net non-operating income totaled ¥140.4 billion, increasing by ¥6.9 billion from the prior fiscal year. Ordinary income totaled ¥210.2 billion, decreasing by ¥492.0 billion (70.1%) from the prior fiscal year. Net special losses totaled ¥623.8 billion as a result of booking an impairment loss and restructuring costs, deteriorating by ¥520.9 billion from the prior fiscal year. Loss before income taxes totaled ¥413.6 billion, deteriorating by ¥1,012.8 billion from the prior fiscal year. Net loss attributable to owners of parent totaled ¥670.9 billion, deteriorating by ¥1,097.5 billion from the prior fiscal year.

For fiscal year 2024, free cash flows in the automobile business were negative ¥242.8 billion. The Group continues to maintain healthy levels of cash in the automotive business and ended the period with an automotive net cash position of ¥1,498.4 billion.

(2) Fiscal year 2024 financial position

■ Assets

Current assets have decreased by 4.3% to ¥12,323.5 billion compared to March 31, 2024. This was mainly due to decreases in merchandise and finished goods of ¥274.8 billion and sales finance receivables of ¥179.1 billion.

Fixed assets have decreased by 3.9% to ¥6,697.5 billion compared to March 31, 2024. This was mainly due to a decrease in machinery, equipment and vehicles of ¥208.0 billion.

As a result, total assets have decreased by 4.2% to ¥19,024.1 billion compared to March 31, 2024.

■ Liabilities

Current liabilities have increased by 16.5% to ¥8,070.2 billion compared to March 31, 2024. This was mainly due to increases in current portion of long-term borrowings of ¥660.0 billion and current portion of bonds of ¥532.2 billion.

Long-term liabilities have decreased by 14.7% to ¥5,508.5 billion compared to March 31, 2024. This was mainly due to decreases in bonds of ¥642.7 billion and long-term borrowings of ¥260.3 billion.

As a result, total liabilities have increased by 1.5% to ¥13,578.7 billion compared to March 31, 2024.

■ Net Assets

Net assets have decreased by 15.8% to ¥5,445.3 billion compared to ¥6,470.5 billion as of March 31, 2024. This was mainly due to a decrease in retained earnings of ¥870.0 billion.

(3) Fiscal year 2024 cash flows

Cash and cash equivalents at the end of the current fiscal year increased by ¥71.3 billion (3.4%) from the end of the prior fiscal year to ¥2,197.5 billion. This reflected ¥753.7 billion in net cash provided by operating activities, ¥971.2 billion in net cash used in investing activities and ¥263.3 billion in net cash provided by financing activities, as well as an increase of ¥25.6 billion in the effects of foreign exchange rate movements on cash and cash equivalents.

The reasons for the increases or decreases for each cash flow activity, when compared with the prior fiscal year, are as follows:

■ Operating Activities

Net cash provided by operating activities decreased by ¥207.2 billion to ¥753.7 billion in the current fiscal year from ¥960.9 billion provided in the prior fiscal year. This was mainly due to a decline in income in the automobile business, partially offset by improved working capital.

■ Investing Activities

Net cash used in investing activities increased by ¥158.6 billion to ¥971.2 billion in the current fiscal year from ¥812.7 billion used in the prior fiscal year. This was mainly due to an increase in capital expenditure.

■ Financing Activities

Net cash provided by financing activities increased by ¥394.8 billion to ¥263.3 billion in the current fiscal year from ¥131.6 billion used in the prior fiscal year. This was mainly due to an increase in funding from short-term borrowings.

(4) Fiscal year 2025 financial forecast

It is currently difficult to reasonably estimate the forecast of consolidated operating results for FY2025, due to uncertain environment such as U.S. tariffs. Therefore, the forecast of these figures has not yet been determined at this time.

It will be announced when we are able to reasonably estimate the forecast.

2. Basic Rationale on Selection of Accounting Standards

We are currently in the process of studying the adoption of International Financial Reporting Standards (IFRS) for the purpose of disclosure of financial information.

3. Consolidated Financial Statements

(5) Notes to consolidated financial statements

(Notes to events and conditions which indicate there could be substantial doubt about going concern assumption)

None

(Basis of consolidated financial statements)

Number of consolidated subsidiaries and equity method applied affiliates

(1) Consolidated subsidiaries: 231 companies (Domestic 93, Overseas 138)

(2) Equity method applied affiliates: 35 companies (Domestic 21, Overseas 14)

(3) Change in the scope of consolidation and equity method

Number of companies newly included in the scope of consolidation; 3 companies

Number of companies excluded from the scope of consolidation; 5 companies

Number of companies ceased to be accounted for by the equity method; 4 companies

The increases in the number of consolidated subsidiaries were mainly due to establishment of new companies and additional acquisitions of shares. The decreases were mainly due to liquidation, merger and sales of their shares.

(For consolidated balance sheet)

Contingent Liabilities

- Lawsuits related to misstatements in Annual Securities Reports (“Yukashoken-Houkokusho”)

As a consequence of misstatements in Annual Securities Reports for each fiscal year in the past, there are some ongoing domestic and foreign lawsuits.

The consolidated financial results may be affected by the progress of legal proceedings.

(For consolidated statement of income)

1. Impairment loss

The Group assesses fixed asset impairment losses based on various criteria, including business segments (automobiles and sales financing) and regional groupings that reflect business interdependencies. In the current fiscal year, the groupings were partially revised based on the change in the complementary relationships. For certain areas of business, we have established individual asset groupings that better reflects future profitability of those assets by separating them from other CGUs.

In response to the significant updated future plan reflecting our current severe challenges and a competitive industry, the Group conducted impairment testing for asset groups for which there were indicators of impairment at the end of current consolidated fiscal year.

As a result of that analysis, the book value of automobile segment business assets and sales finance business assets were written down to their recoverable amount and an impairment loss of ¥464,367 million and ¥2,686 million were recorded as a special loss.

For North America, the recoverable amount is measured by the value in use, which is calculated by discounting future cash flows at discount rate of 10.23%. For South America, Europe and Japan, the recoverable amount is measured by net realizable value, which is calculated based on the real estate appraisal value, etc.

Usage	Type	Location	Amount (in millions of yen)
Business assets	Machinery, equipment and vehicles, and others	North America	237,558
Business assets	Machinery, equipment and vehicles, and others	South America	24,642
Business assets	Machinery, equipment and vehicles, and others	Europe	138,771
Business assets	Machinery, equipment and vehicles, and others	Japan	66,082
		Total	467,053

The Group determines whether an individual asset is impaired if the asset is considered idle or if it is to be disposed of. Impairment losses were recognized on the following assets.

Usage	Type	Location	Amount (in millions of yen)
Idle assets	Machinery, equipment and vehicles, Construction in progress and others	Japan, North America, Asia and Other overseas countries (Total 27 locations)	6,958
Assets to be sold	Land and Buildings and structures	Japan (Total 24 location)	1,765
Assets to be disposed of	Machinery, equipment and vehicles, Buildings and structures and others	Japan and Other overseas countries (Total 11 locations)	19,159

2. Income taxes for global minimum tax

Amount of income taxes-current pertaining to global minimum tax (in millions of yen)	
FY2023 (From April 1, 2023 To March 31, 2024)	FY2024 (From April 1, 2024 To March 31, 2025)
—	8,718

(Segments of an enterprise and related information)

【Segment information】

1. General information about reportable segments

The reportable segments of the Group are components for which discrete financial information is available and whose operating results are regularly reviewed by management to make decisions about resource allocation and to assess their performance.

Businesses of the Group are segmented into Automobile and Sales financing based on the features of products and services. The Automobile business includes manufacturing and sales of vehicles and parts. The Sales financing business provides sales finance services and leasing to support the sales activities of the Automobile business.

2. Calculation method of net sales and profits or losses by reportable segment

In principle, the accounting method for the reportable segments is the same as basis of preparation for the consolidated financial statements.

The segment profits are based on operating income. Inter-segment sales are based on the price in arms-lengths transaction.

3. Net sales and profits or losses by reportable segment

Prior fiscal year (From April 1, 2023 To March 31, 2024)

(in millions of yen)

	Reportable segments			Elimination of inter-segment transactions	The year ended March 31, 2024

4. Other Information

- Matters related to misconduct led by the Company's former chairman and others

The former Representative Directors of the Company were indicted on suspicion of violating the Financial Instruments and Exchange Act (FIEA) (charged with submitting false Securities Reports) and a former Representative Director and Chairman was additionally indicted on suspicion of violating the Companies Act (charged with aggravated breach of trust). In conjunction with these indictments, the Company itself was indicted on suspicion of violating the FIEA. The Company took this situation very seriously and formed a Special Committee for Improving Governance (SCIG) consisting of several independent third parties and independent Outside Directors of the Company. On March 27, 2019, Nissan's board of directors received a report from the SCIG that summarizes the committee's proposals for governance improvements and recommends a framework for the best governance as a foundation for Nissan business operations in the future. The Company has made the transition to a three statutory committee format.

On September 9, 2019, the board of directors of the Company received a report from the Audit Committee on the internal investigation into misconduct led by the Company's former chairman and others. As stated in the timely disclosure released on September 9, 2019 "Nissan board receives report on misconduct led by former chairman and others", the report confirmed specific instances of misconduct. Among these instances, Ghosn's personal use of the company's assets and improper payments of financial "incentives" to Nissan distributors instructed by Ghosn are as follows. Since September 9, 2019, there have been no changes made to the following contents at the time of submission of this report. In the future, if significant progress occurs in the following contents, we will disclose in accordance with relevant laws and regulations.

A) Ghosn's personal use of the company's assets

The report confirms that Ghosn used the company's assets for personal benefit, including:

- purchase of residences for exclusive personal use in Beirut and Rio de Janeiro using roughly 27 million U.S. dollars in investment funds from Zi-A Capital, a Nissan subsidiary established under the guise of investing in promising technology start-ups, and further misuse of other company funds to purchase or rent additional residences for personal use;
- payment of sums totaling more than 750,000 U.S. dollars to Ghosn's sister on the basis of a fictitious consulting contract, starting in 2003 and extending for over 10 years with no evidence of any services having been rendered;
- personal use of the corporate jets by Ghosn and members of his family;
- improper use of expenses toward family vacations and gifts of a personal nature;
- instruction of donations totaling more than 2 million U.S. dollars of company funds to universities in Ghosn's ancestral home country of Lebanon with no legitimate business purpose;
- transfer to Nissan in 2008 of foreign exchange swap contracts bearing unrealized losses of roughly 1.85 billion yen, based on a deceptive explanation to the company's board regarding the nature of the transaction (in 2009, the swap contracts were secretly transferred back to a company related to Ghosn after being flagged as improper by Japan's financial authorities);
- improper payments totaling 7.8 million Euros to Ghosn from Nissan-Mitsubishi B.V. ("NMBV"), which is a joint venture established by Nissan and Mitsubishi Motors Corporation, paid from April 2018 onward under the pretext of a salary and an employment contract with NMBV, despite the fact that no contract had been approved by the NMBV's board of directors.

B) Improper payments of financial "incentives" to Nissan distributors instructed by Ghosn

Ghosn instructed a Nissan subsidiary to make payments totaling 14.7 million U.S. dollars to a distributor managed by an acquaintance outside Japan who had previously offered him personal financial support (a fact Ghosn withheld from Nissan's board of directors and the relevant departments within the company). Payments were made under the pretext of covering expenses for special business projects and were approved through Nissan's CEO Reserve, an emergency budget over which only Ghosn and a selected few direct subordinates had approval authority.

Ghosn also instructed a Nissan subsidiary to make payments totaling 32 million U.S. dollars to a distributor outside Japan, an employee of which transferred tens of millions of dollars to Ghosn and a company related to Ghosn (a fact Ghosn withheld from Nissan's board of directors and the relevant departments within the company). Payments were made under the pretext of granting financial incentives to the distributor in question and were approved through the CEO Reserve.

The Company has received a written notice of commencement of trial procedures dated December 13, 2019, from the Commissioner of the FSA. In response to this written notice, on December 23, 2019, the Company has submitted a written answer not disputing the alleged facts and the amount of the administrative monetary penalty. After that, the Company has received the administrative monetary penalty payment order, dated February 27, 2020, of 2,424,895,000 yen from the Commissioner of the FSA.

On March 3, 2022, the Company received from the Tokyo District Court a guilty judgment regarding the violation of the FIEA (submission of annual securities reports containing false statements) and was ordered a penalty of 200,000,000 yen. The Company treats the judgment with utmost seriousness, and after careful consideration of the principal penalty and the findings in the judgment, the Company has decided not to appeal. Since the Company and the prosecutors did not appeal against the guilty judgment on the Company within the period determined by the Criminal Procedure Act, the judgement has been finalized.

On April 26, 2022, pursuant to the provisions of Article 185-8-6 of the FIEA, the FSA modified the penalty by deducting 200,000,000 yen, which is equal to the criminal penalty in the judgment, thereby making the total amount of the administrative penalty 2,224,895,000 yen. This administrative monetary penalty has been paid in full.

Also, in an unfair dismissal lawsuit filed in the Amsterdam District Court by Ghosn against NMBV and a subsidiary of Nissan, NMBV brought a counterclaim against Ghosn for repayment of the sums Ghosn appropriated unlawfully from NMBV. While the Amsterdam District Court dismissed Ghosn's claims and ordered Ghosn to return roughly 5 million Euros in its decision rendered on May 20, 2021, Ghosn submitted the statement of appeal to the Amsterdam Court of Appeal on August 20, 2021. As a result of a cross-appeal and defense subsequently submitted by NMBV, the Amsterdam Court of Appeal rendered a decision on August 23, 2022, dismissing the vast majority of Ghosn's claims and ordering Ghosn to return roughly 4.2 million Euros. The decision has become final as a result of the expiration of the deadline for an appeal.

Some of the residences purchased for personal use as a result of misuse of company funds by Ghosn has been sold.

The Company has filed a provisional disposition order in the British Virgin Islands against Ghosn and related parties for a luxury yacht and has filed a lawsuit seeking damages, etc. based on the order. Also in Japan, the Company has filed lawsuits against Carlos Ghosn on February 12, 2020, and Greg Kelly, the former Representative Director of the Company, on January 19, 2022, seeking recovery of damages. Going forward, the Company will continue to take necessary measures based on the findings of the Company's internal investigation, including legal measures to recover damages, in order to account for the responsibility of the former chairman and others.

In December 2019, new management has been established, whose members have been selected by the Nomination Committee. As demonstrated by the establishment of new management, strengthening of the supervisory function of internal audit, and so on, the Company is working on various countermeasures to prevent recurrence.

The Company continues its efforts to improve its governance, including ongoing implementation of the improvement measures stated in the Improvement Measures Status Report submitted to Tokyo Stock Exchange on January 16, 2020, as well as reviewing necessary improvements from time to time going forward. The Company also continues to reform its corporate culture, renew corporate ethics, disclose corporate information appropriately and enhance compliance-focused management.

- Matters related to a recommendation from the Japan Fair Trade Commission

On March 7, 2024, the Company received a recommendation from the Japan Fair Trade Commission based on the "Act against Delay in Payment of Subcontract Proceeds, Etc. to Subcontractors" ("Subcontract Act").

The recommendation is regarding past transactions with suppliers to which the Subcontract Act applies. A portion of the rebates received by the Company from 36 suppliers subject to the Subcontract Act were determined by the Commission as not in accordance with the provisions of Article 4, Paragraph 1, Item 3 of the Subcontract Act. This totals approximately ¥3 billion from January 2021 through April 2023. The Company has refunded an equivalent amount of rebates to suppliers. In addition, the Company has already discontinued rebates in transactions with subject suppliers.

The Company takes the recommendations from the commission very seriously. Work between companies and their suppliers can only develop for both parties if it is based on a relationship of strong trust. To properly carry out transactions with suppliers going forward, the Company will strengthen its compliance system by reinforcing the periodical inspections system of compliance with the Subcontract Act, providing thorough and periodic training to executives and employees involved in subcontracting transactions, and taking other measures to prevent recurrence. The Company submitted the corrective action report to the Japan Fair Trade Committee on March 5, 2025.

As part of these efforts to strengthen our relationships with partners, create value for both and ensure compliance, a hotline is created outside of the Company that allows our partners to report any potential compliance matters anonymously. Secondly, we created the partnership transformation office, with a direct reporting line to CEO, consisting of members from Monozukuri and other relevant functions. This team has been actively visiting our partners to understand their challenges, receive their feedback, and share those with the rest of the organization in a timely manner so that the Company can take any necessary actions quickly. These two channels of communication in addition to the current supplier contacts managed by each function, aim at promoting better understanding of our partners' situation and accordingly at ensuring our compliance.
