

# **Electronic switch for easy seat adjustment & Thin Seat**

## Thin Seat

- Opens up the cabin for better views of fellow passengers for comfort and conversation.
- Adds style yet reduces weight.

High tensile strength steel back frame

- New, strong yet thin frame cuts weight, saves space, adds comfort & style.
- Thin and light new structurally optimized design made with high-tensile steel.
- With thinner seats there is still room for airbag and massager installation.
- Lighter weight means greater energy efficiency.

## Electronic switch for easy seat adjustment

- No more bending down to lift a slide-release handle (towel bar).
- Simply lift a switch, then slide the seat to the desired position.

### Newly developed

**Switch**

### Conventional

**Towel Bar**

- Switch operated slide-lock/release actuator replaces inconvenient towel bar.
- Lock/release switch for easy access from upright sitting posture.
- Seat walk-in device, reclining function, and more are easy to add.

The logo features the word "NISSAN" in a black, sans-serif font. To its right is a small icon consisting of three blue curved lines above a solid black square. This is followed by the word "INTELLIGENT" in a black, sans-serif font, and finally the word "MOBILITY" in a larger, bold, black, sans-serif font. The entire text is centered horizontally against a light blue background with a network of dots and lines.

NISSAN  INTELLIGENT **MOBILITY**
